

Fairchild Technologies GmbH • Planckstraße 9 • 71665 Vaihingen/Enz • Germany

To whom it may concern

Subject: Recommendation, Ralf Krause

Mr. Ralf Krause has been doing an excellent job as Project Manager of Fairchild Technologies' largest project. This project included the development, manufacturing, delivery and installation of semiconductor manufacturing equipment to Samsung Electronics Corp., in Seoul, Korea.

Mr. Krause's project included equipment totalling more than \$25 Million. The equipment had to be developed and supplied within a very short time and according to the customer's specifications, which were very demanding. Mr. Krause coordinated all the activities in the company impacting the purchase order from Samsung. This he did extremely well.

Mr. Krause established excellent relations with Samsung engineers and personnel of our representatives in Korea. They all learned to trust him and value his judgement.

Mr. Krause is an experienced and intelligent manager and I recommend him highly.

Gadi Neumann, Ph.D.

General Manager

Fairchild Technologies, GmbH.
